

48mm Facom 50 Ring Hammer Wrench

Product Overview

The **48mm Facom 50 Ring Hammer Wrench** is a high-performance tool designed for heavy-duty industrial applications. Engineered for durability and precision, this wrench is ideal for use in demanding environments where high torque and impact resistance are required.

Key Features

- **High-Quality Construction** – Made from premium-grade steel for strength and longevity.
 - **Ring-End Design** – Provides a secure grip on fasteners for efficient torque application.
 - **Hammer-Strike Functionality** – Allows for additional force application using a hammer.
 - **48mm Ring Size** – Perfect for large nuts and bolts in industrial settings.
 - **Corrosion-Resistant Finish** – Ensures long-lasting durability even in harsh conditions.
 - **Ergonomic Design** – Minimizes user fatigue and enhances grip comfort.
-

Technical Specifications

- **Brand:** Facom
 - **Model:** 50
 - **Size:** 48mm
 - **Material:** High-strength alloy steel
 - **Finish:** Corrosion-resistant coating
 - **Design:** Ring-end with hammer-strike capability
 - **Weight:** Optimized for balance and ease of use
-

Application

The **48mm Facom 50 Ring Hammer Wrench** is widely used in:

- **Heavy Machinery Maintenance** – Ideal for securing large fasteners in construction and industrial equipment.
- **Oil & Gas Industry** – Perfect for assembling and disassembling high-torque components.
- **Automotive & Transportation** – Used in truck, shipyard, and railway maintenance.
- **Power Plants & Manufacturing** – Essential for industrial assembly and repair tasks.

Benefits

- **High Torque Capability** – Delivers superior force for loosening or tightening stubborn bolts.
- **Durability & Longevity** – Designed to withstand heavy impacts and extreme working conditions.
- **Improved Efficiency** – Saves time and effort by allowing hammer-assisted operation.
- **Versatile Use** – Suitable for multiple industries requiring precision and strength.

Distributor & Supplier

Lystus is the authorized **distributor, supplier, seller, and importer** of the **48mm Facom 50 Ring Hammer Wrench**, ensuring availability of high-quality tools for industrial and professional applications.
